AISHA FUNMI YUSUF

Software Engineer

+234 950199299   AishaYusuf4@outlook.com   https://github.com/CyGold

Abuja,FederalCapitalTerritory

SUMMARY

I have demonstrated a strong ability to adapt to new technologies and methodologies. I have successfully completed several personal projects, including the design and implementation of a CI/CD pipeline, as well as the creation of a Grafana dashboard to visualize metrics. My commitment to continuous learning and improvement has equipped me with the skills to manage complex systems and deliver high-quality solutions.
